## Attention All CRCs and CCRCs: We Need You to Register Your Online Profile with the CRCC

**Look for Personalized Details on Page 2 of the CRCC Newsletter Now in the Mail!**

In an ongoing effort to be more efficient and environmentally-friendly in our communications, CRCC is asking all 16,000 active CRCs and CCRCs to ensure we have your most current and accurate contact information, including email addresses. Having your most updated email address will be especially important as CRCC transitions to an online renewal and continuing education process in early 2010.

It's a simple process that takes only a computer, internet access, and 5 minutes of your time. Page 2 of the Fall 2009 CRCC Newsletter has everything you need to register your profile, including simple step-by-step directions and **your personal Customer # and Password**. (You may change your password anytime once you are logged in.) Be sure to keep an eye out for your CRCC Newsletter for all the information you need. CRCC Newsletters have been mailed - you should be receiving your personalized copy within the next week.

### Once Registered, Be Sure to Opt-In!

After you register online, you will also have the ability to OPT-IN to the CRCC public search directory. This is a tremendous tool for everyone including the general public, certificants, rehabilitation professionals, employers, and service providers. Using this online directory, located on the CRCC website, individuals can search and locate a CRC/CCRC based on geographical location, specialty, and/or language. For CRCs and CCRCs in particular, the directory provides many important benefits, including:

- Increased professional exposure;
- Increased potential for new clients;
- Increased potential for new job opportunities; and
- Increased potential for professional referrals.

Each certificant has complete flexibility to decide what contact information they wish the public to see. But remember ... to participate, you must OPT-IN!
