CRCC is proud to present CRCC ASPIRE - an all-new, online job board designed and built to connect CRCs and CRC applicants with employers who value the CRC credential in their hiring practices.

CRCC ASPIRE provides access to job opportunities specific to rehabilitation counseling and the CRC credential, posted by employers who value the CRC credential and the advanced education, knowledge, and skills it denotes. Accessible 24/7 via desktops, laptops, tablets, and mobile devices, CRCC ASPIRE allows users to easily perform a variety of key activities including:

**Job Search**  
Select and search jobs based on criteria specific to your individual needs and preferences. Save your customized criteria for future searches.

**Custom Alert**  
Trigger alerts when jobs meeting your criteria are posted.

**Post Resume**  
Post your resume to the CRCC ASPIRE resume database. Keep it hidden or make it public when you wish for CRCC ASPIRE-registered employers to be able to view your resume.

**Online Response**  
Respond online to jobs of interest.

We're Building This for You!
It takes time to build a great job board. CRCC and job board host, Boxwood Technology, have identified and are reaching out to over 2,000 employers within the profession, both in the private and public sectors, as part of the initial CRCC ASPIRE employer outreach program. Our goal is to have Employers register themselves on the Job Board, be able to search CRC and CRC applicant resumes, and begin to post CRC-relevant positions as they become available.

We Need Your Help!
Help us build a premier job board for Employers to search and hire CRCs and CRC applicants.

1. Log in to CRCC ASPIRE and confirm your information.
2. Complete additional information to create your full account.
3. Create or upload your resume. You may select to keep your resume hidden; to make it confidential; or to make it public. You may also change this selection at any time.
4. Create your Job Agent(s). By customizing your unique job search criteria, CRCC ASPIRE will generate instant alerts to your email inbox when there is a match with any job posted.
