The final draft of the Rehabilitation Counseling Specialty Standards for accreditation are open for comment.

The Council on Rehabilitation Education (CORE) is seeking your feedback on Draft #3 of the Rehabilitation Counseling Specialty Standards for accreditation. This draft reflects changes recommended by stakeholders who provided feedback about Draft #2. One notable change is the simplification of the Standards, using more general terms instead of "laundry lists" of specific elements within many of the Standards. CORE welcomes your feedback about this change, as well as other feedback you can provide.

This is the final draft that will be available for public comment. CORE’s Standards Revision Committee will review all of the feedback received about this draft and make any changes needed before submitting the final Standards to CORE's Board of Directors for review and approval. After the Standards are approved by CORE’s Board of Directors, that final version will be adopted by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) on July 1, 2017.

CORE requests your feedback no later than 5:00 PM EST on Monday, April 17th.
